About Us

Robot Lovers, Detroit's premier party/dance band, arose from the ashes of several successful bands in June 2007. The Robots' purpose in the universe is to put people on the dance floor and make sure everyone has a great time. The band puts on a show interacting with the crowd, with wireless mics and guitars, and joining the crowd dancing and singing along to cover tunes by artists such as Black Eyed Peas, Prince, Billy Squier, Jason Derulo, The Cure, Rick Springfield, Buck Cherry, Poison, and Kid Rock. We also have a multi-colored effects light show complete with fog machine to add to the entertainment experience!

Chuck (vocals, acoustic guitar & keyboards), has played in various local bands since he was 17. His mission is to keep the dance floor full!

Larry (drums and vocals), also a veteran of the Detroit music scene, has pounded the skins in numerous rock bands in Detroit.

Derf (guitar and vocals), another long-time veteran of the Detroit music scene, only knows how to play guitar one way: like his life depends on it. He is also our web master!

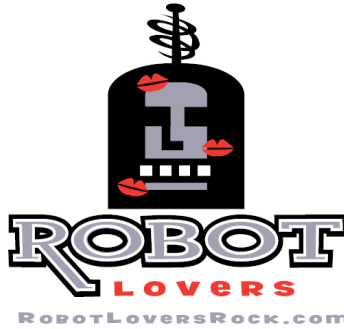

Dave (bass & vocals) has rocked the stage and studio since high school, his love for the bass began about 10 years ago. He knows nothing but driving the dance floor with funky-ass bass lines.
